Event Report: Youth for Earth – Environment & Environmental Protection

Date: 21st August 2025

Venue: Gamani High School, Balipara Block, Sonitpur District

Time: 9:30 AM

Organized by: Assam Investment Advisory Society (AIAS)

Catalysed and Supported by: Assam Pollution Control Board (APCB)

The Youth for Earth: Environment & Environmental Protection Awareness Drive was successfully held on 21st August 2025 at Gamani High School, Balipara Block, Sonitpur District. Organized by the Assam Investment Advisory Society (AIAS) and catalysed and supported by the Assam Pollution Control Board (APCB), the event was also supported by Mahila Shakti Kendra(MASK). The initiative aimed to foster environmental awareness, promote sustainable habits, and engage youth and community members in climate-conscious practices.

The event was graced by Dr. Arup Kumar Misra, Chairman of the Assam Pollution Control Board(APCB), who attended as the Chief Guest. In his keynote address, he emphasized the vital role of youth in combating climate change and the importance of integrating environmental education into grassroots communities. His words greatly inspired the students and attendees.

Key Highlights of the Event:

Student Exhibition:

The students of Gamani High School presented a vibrant exhibition that included:

- Eco-friendly village models
- Creative innovations promoting sustainability and green technology
- Handcrafted posters and charts on climate action, biodiversity, and pollution control

These exhibits showcased the students' environmental awareness, creativity, and commitment.

Cultural Performances:

The program featured a blend of education and culture through:

- A musical play focusing on environmental degradation and the path to restoration
- Traditional performances representing the indigenous heritage and its harmony with nature

These segments helped deepen the message of sustainability through artistic expression.

Educational Sessions & Discussions:

The drive also included engaging and informative segments such as:

- Expert talks on climate action, pollution control, and sustainable development
- Interactive sessions and group discussions involving students, teachers, and parents
- Awareness activities promoting afforestation, plastic reduction, and eco-conscious lifestyles

Community Participation & Impact:

More than 400 students, along with parents, teachers, and community members, participated enthusiastically in the program. MASK's dynamic involvement, particularly in engaging with the students and facilitating community interaction, greatly enhanced the depth and outreach of the event.

The initiative not only educated but also empowered participants to adopt sustainable practices in their daily lives. It fostered a sense of shared responsibility across generations and promoted actionable ideas for environmental protection.

In conclusion, the Youth for Earth Awareness Drive emerged as a meaningful convergence of education, community, and conservation. The initiative successfully sowed the seeds for a more conscious and responsible generation committed to safeguarding the environment.
